A New Council Demanded.

The time is approaching for the election of a new council for the city of Frankfort. An improvement on the present one is needed badly, and it devolves upon the people to select men who have the good of the city at heart. In this connection, the Frankfort Council, or at least a majority thereof, had a scheme before the last Legislature in which the city was authorized to take an unlimited amount of stock therein, in other words it was a scheme to get the city to furnish the money and the stockholders were to have an unlimited amount of stock and full control.

Again, to aid a "friend," an insurance policy for more money than could be collected from the company should a fire occur, was canceled thirty days before it expired to give the insurance to a "friend" of the councilmen, and the worst of all by the instruction of this same one-man power the work of the department was to issue the city warrant for the full amount of the premium without any order of council. When trustees of a city concoct schemes to make money for themselves at the expense of the city it is time for a change. Let the citizens look around and elect a council composed of good men, all tax-payers.

Let the citizens and tax-payers register their dissatisfaction of the very best men in the city, and vote and elect them. But above all, make a new deal for the good of the city and her people and place a seal of condemnation upon every scheming councilman who offers for re-election.

P.S.—In referring above to the late "Insurance deal?" It should have been stated that in order to defeat the ultimate efforts of other agents to secure in a many way a division of the "Bridge insurance" (\$11,000 for 3 years) the account of the favored agent was approved by the chairman of the Bridge Committee, the premiums (\$350) collected a month prior to the expiration of the old policies, and consequently afterwards, while the agent's effort to secure it, but one dissenting voice, inclined the whole "scheme" to favor one man (and he now and for years a delinquent tax-payer to the city) notwithstanding the earnest protests made before the council by other agents in person and by written remonstrances. The county Judge allowed a similar "deal" to be worked with another agent to collect the Bridge. For many other points and proofs in the premises, ask the insurance men of the city. TRUTH.

FRANKFORT ROUNDABOUT.

Entered at the post-office at Frankfort, Kentucky
as second class mail matter.

GEORGE A. LEWIS,
Editor and Publisher.
FRANKFORT, AUGUST 28, 1886.

Rumor has it that there is to be another wedding soon. The groom is an employee of Uncle Sam, the fair bride is the leading saleslady in a St. Clair street dry good store.

The Annual Conference of the M. E. Church, South, meets in Winchester on September 7th. The officers of the Methodist Church in this city, at their last meeting, requested the return of the Rev. Mr. Kelley to this charge, which he has served so acceptably for the past two years. He has not only endeared himself to his own members, but is held in the highest esteem by the entire company, and our people, without regard to sect or creed, join in the prayer for his return to this charge.

Go and Register and Fill Register.

All citizens and persons who expect to attend the Centennial had better go to John L. Scott's office and register their names, families and business in the Centennial Register, as the rush from that time until the 6th of October will likely be so great that there may be difficulty in making the registration of all our citizens. State, county and city officers, heads of departments, courts, churches, schools, and all societies now engaged in preparing statistics showing their origin, growth and present status, would do well to have all their reports filed by that time so that notes of each can be properly entered in the register. These reports should be plain statements of facts, signed by the officers or persons making them, and so shaped that the future historian and biographer can be benefited by the facts and give due credit to the officer or person to whom he is indebted for them. This register and its accompanying reports and statistics will make a storehouse of information, the like of which does not exist in the South. Let us make this a grand and entirely new feature of the Centennial. Write your reports in clear style and place them in large envelopes properly endorsed, so that there will be no trouble in seeing at a glance what each report is about and who made it.

Franklin Association.

The seventy-second annual session of the Franklin Association of Baptists met with the church at Frankfort on the 24-25-26 August. Was organized by electing Mr. Thos. Rodman Moderator and Dr. U. V. Williams Clerk and Joseph B. Lewis Assistant Clerk. The introductory sermon was preached by Dr. R. M. Dudley, who gave a resume of Baptist history in this country for hundred years. Was an exhaustive and eloquent address and contained historic facts not usually touched upon in such discourses. The business of the Association was instructive and throughout was such as to keep up the enthusiasm and interest of the entire delegation and visitors, which was an attendance so large as to fill the house to its utmost seating capacity. The aisles were filled with chairs, and still others failed to gain admittance.

The communications from the churches showed an increase of membership, indeed a revival in every one. While the Sunday-school interest presented a large increase over all former years. Fifteen churches form the Association, all but two located in Franklin county, while four churches in this county hold their membership in another Association. Summed up—15 Sunday-schools in the church-houses 8 mission schools; over 1,300 children taught in Baptist schools the county every Sunday. While the four churches not reported have fine schools with over four hundred in attendance. Raised for Orphans' Home, \$104.96; raised during the past year for home and other missions, over six hundred dollars and pledges made for the ensuing year amounting to over eight hundred dollars. The session just closed was the most enthusiastic and efficient ever held by that body.

FRANKFORT ROUNDABOUT.

FRANKFORT, AUGUST 28, 1886.

Rev. H. H. Kavanaugh will preach at Antioch Sunday, September 5, at 11 o'clock a.m.

Dr. W. L. Kelley, of Cincinnati, is at the Capital Hotel to-day, and will be glad to see all those needing his professional services.

The steamer Grace Morris and barge brought down the river on Friday evening 1,805 sacks of wheat, besides a large quantity of whisky.

The alarm of fire on Sunday morning at 7 o'clock was occasioned by the bakery of the Capital Hotel catching fire. It was speedily extinguished and with little damage.

Mr. W. M. Bristow has placed us under obligations for a mess of the finest sweet potatoes of the season. Four of them weighed 7½ pounds. They are of the red bermuda variety.

We are much gratified to learn that Mrs. Grant Green, sr., who is at the Warm Springs, in Virginia, is improving, and hopes are entertained now for her complete recovery.

Mr. W. M. Bristow, seeing our notice of the large sunflower, brought us one that goes right smartly better, being forty-eight inches in circumference. Next.

And still they come. Mr. Lewis Sanford has sent to our office another mammoth sunflower. It is just the same size in circumference with the one sent by Mr. Bristow, but is a little larger through the back.

Mr. V. Berberich, who has been absent from the city for three weeks, will return to-day, and will be ready for business early Monday morning. His many customers will take due notice and govern themselves accordingly.

The Public School, in South Frankfort, Mr. Mike Buckley, contractor, and Mr. B. B. Jeffers, superintendent, is being pushed toward completion. The hope being to complete the building this fall, they have a full force at work.

The Committee of Arrangements of the Sunday-school Convention desire to thank Messrs. H. H. Baldwin & Co., for the use of their elegant Eddy Organ, loaned by W. M. Culter, Esq., agent at this place, on the occasion of the late Convention.

S. C. BULL, Chm' Com. Ar.

Messrs. Richardson and Hawkins have just sent the ROUNDABOUT boys the largest watermelon of the season. It weighed forty-five and a half pound and is of the black Italian variety. It was grown in the land of Mr. Na. Richards, and they have ten acres of them that they are daily retailing to our citizens.

Mr. Darsie occupies his pulpit at the Christian Church to-morrow morning at 11 o'clock. There will be no night service, as Mr. Darsie goes to Grafton to begin a protracted meeting to-morrow night. The meeting will continue a couple of weeks, but Mr. Darsie will fill his home pulpit each Sunday morning during its continuance.

Capt. John H. Pattie, who attended the reunion of the "Orphan Brigade," of which he was a member, in Cynthia, returned home on Thursday, and together with Jerry Spalding and Joe Cole, will go over the ground and repeat the scenes from 1861 to 1865, at their experience meetings, which are held nightly at the store of Mr. T. F. Lang, in South Frankfort. They are all loud in their praise of the hospitality of the good people of Cynthia.

HULL ALHAMBRA PALACE—The principal feature in this week's programme at this place of amusement—the extraordinary performance of the Pavanes, "The Pavans of Paris." Their entertainment is certainly most original, for they contrive to produce, among other most pleasing effects, from some of the apparently most unusual articles. Paving stones, hammers and chisels are not usually associated with sweet sounds, but under the manipulation of the Pavanes they instantly become harmonious.—*Hull (Eng.) Daily News.*

Opera House September 1st.

Deputy Collector Sam'l Blackburn reports \$3,829.10 as the Internal Revenue collections for the past week.

A nice crowd of excursionists went up to Clinton on the Grace Morris and her palace barge, Wednesday, and thoroughly enjoyed themselves.

Rev. Wm. L. McEwan, of Wilmington, Delaware, is visiting relatives in this city, and will conduct the services at the First Presbyterian Church at 11 o'clock to-morrow.

Committee on Decoration are requested to meet at Council Chamber on business of very great importance, Monday afternoon at 3 o'clock.

R. FERGUSON,
Chairman.

An experienced book-keeper wishes to write up, post or balance books at night. Parties desiring the service of same will address P. O. Box 375, Frankfort, Ky.

Special trains will be run between this city and Lexington during the Fair, which begins on Tuesday next and continues five days. The train will leave this city at 7 o'clock in the morning, and returning leave Lexington at 6 o'clock in the evening. For the round trip \$1.15.

Mrs. Sol Harris has left for New York City to buy a full stock of dry goods, fancy goods, notions, millinery, etc.

She will meet Mrs. Wollerman, my head milliner, there where they will select all the latest novelties that can be found in the eastern markets. It will be to your interest to wait for her return.

SOL HARRIS.

On Tuesday night Mr. Wm. Egbert, son of Mr. Chas. T. Egbert, of this city, was shot and dangerously wounded by some unknown person, near Texarkana, Texas, while acting as a nightwatchman in a lumber yard. His father and mother left this city on Wednesday for that place to be with him.

Last fall Messrs. J. E. Miles & Son introduced the Mediterranean Hybrid, a new variety of red wheat, in this section, and Messrs. Richard Foggs and M. D. Averill, of this county, were among the number of farmers who procured seed from them. On Tuesday day Mr. Foggs took the first premium at the wheat show of Cincinnati at John F. Davis, on a sample raised by him, and on the same day Mr. Averill presented his crop, the yield being 40 bushels to the acre. It seems that this variety is especially adapted to this locality.

On Saturday night Frank Egbert had difficulty with a young color-man by the name of Jake Dudley, in which Dudley was seriously injured several times. Officers George and P. S. Smith attempted to arrest Egbert, but he drew a pistol and defied them, and he since eluded arrest. The two officers have been dismissed by the City Council. Officer P. S. Smith is telling the public to suspend their judgment in the case until next week, when he will publish a card explaining his action, which he brought in too late for this issue.

The best medical authorities acknowledge the value of Ayer's Cough Pills, and frequently prescribe their use with the utmost confidence, as the most effectual remedy for disease, whether by derangements of the stomach, liver, and bowels.

Fulton Hall opens with a First Class Show.

[Daily New Era, Aug. 14.]

The opening of Fulton Hall for the season took place last night, when Wilson and Bantin's famous minstrels appeared to a house that was far connoisseur with the excellence of the entertainment. The bill was one of the best ever offered by a ministerial company, and audience, but the oppressive heat deterred a great many from going who would otherwise have been there. The Polack Brothers and the Pavanes are wonders, and the applause they elicited was generous as it deserved. George Wilson has lost none of his powers for making people laugh, and he repeated his old drollery with great success. All in all, we have never seen a better musical and variety entertainment in this city, and if the company should return in cool weather we feel safe in saying they will be greeted with a crowded house.

DEAR FRIENDS.—The education of our children ranks among the highest of human duties. Many of you who are in earnest upon this point, make serious mistakes in the discharge of your parental duty, some of which mistakes are fatal to the object in hand. We suggest the nature of the mistakes in the interest of the children.

As to starting in.—Parents wait to finish the crops and sow the wheat before allowing the boys to enter school. Meantime, the girls are enrolled, and their class-work is well begun; securing to them advantages that tell against the boys for the remainder of the year. This is a great mistake, and a waste of time.

As to regular attendance.—Parents wait for bright minds to be interested in school, and then neglect attendance. The work of the school is a growing process; and each day's growth depends on the growth of past days; especially on that of the day preceding. When growth is checked for a season it can not begin again at a great disadvantage.

A child who stays out of school on Monday is a certain failure for the remainder of the year. This is a great mistake, and a waste of time.
